

A voice for electric vehicle drivers in England

What we do

We are an advocacy organisation for current & prospective electric vehicle (EV) drivers in England. We aim to offer a voice to EV drivers by representing them and their interests to Government, industry, and media.

Some of our work to date

- Lobbied on behalf of 1,100+ EV drivers for a 2030 phase out date of new petrol and diesel cars
- Spearheaded a media campaign to positively reflect the diversity of EV drivers' experiences ahead of 2030 announcement
- Liaised with Government on a range of EV drivers' concerns – from contactless payments to improved motorway services charging
- Represented EV drivers at industry conferences, in Parliament and at community events
- Became a founding member of the Global EV Alliance (GEVA), which represents drivers from 35+ countries

Five facts about EVA England

1

We are a non-profit membership association for EV drivers

2

We are volunteer-led with a board of volunteer directors

3

We are EV drivers with 40+ combined years of driving electric

4

We are founding members of GEVA, the global EV alliance

5

We are Champions for EVs, the EV driving experience and their health and environmental benefits

Member benefits

Members receive access to our digital Members' Pack, which is jam-packed with information on EVs and charging, as well as tips to accelerate your electric journey.

We also offer discounts from our industry partners – with more to come!

rightcharge

Discounted home charger
